## Introduction

The organization works with the **CalEPA, Office of the State Fire Marshal, the California Office of Emergency Services, the Department of Toxic Substances Control, the State Water Resources Control Board and USEPA** to update and continuously improve the Unified Program for the agencies, businesses and the communities we serve.

**For the past 27 years, the California CUPA Forum Board has invited both government entities and industries to attend and receive the same training at the annual training conference.**

The California CUPA Forum's focus is on how we can work with all parties, both internal and external, to:

- Develop guidance, regulations, and policies regarding CUPA administration.
- Establish positions on statewide issues affecting CUPAs and provide a unified CUPA response to such issues.
- Coordinate an information exchange between CUPAs and the State on statewide issues.
- Assist in making professional training available to both CUPA agencies and industry.
