

Tank Talk – The Fellowship of the Ringwall AST Panel

TU-G3

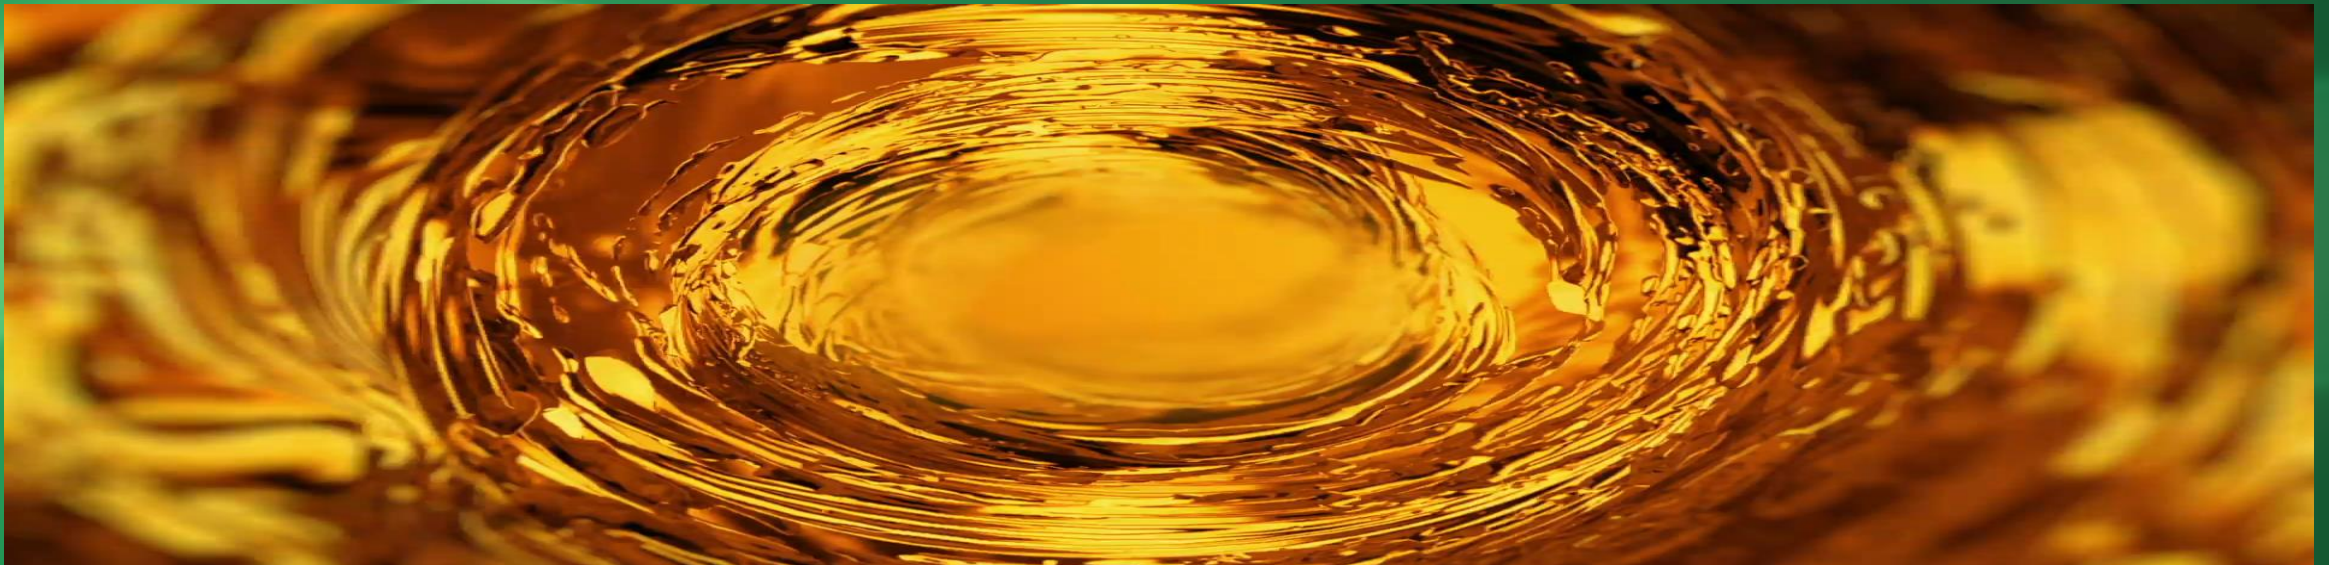

Why are we here...

The meeting of the A&T Council of Mateo has been moved from Rivendell to the City of Burlingame in the land of California. The A&T Council of Mateo Fellowship of the Ringwall consists of a diverse group of technical/regulatory A&T representatives on a quest to share experiences and answer questions on petroleum A&Ts, piping, appurtenances, operations, standards, inspections, and associated Federal and State oil spill prevention programs.

Learning Objective

Provide the audience an opportunity to ask questions to an AST panel of industry, standard organizations (API & STI), & regulatory representatives
